Key Insights & Recommendation

KEY INSIGHTS

WORKFORCE

3,200

Employees across 8 departments. Technology is the largest department with 660 employees.

WORKFORCE STRUCTURE

82.4%

Employees are Permanent. Hybrid is the most common work mode with 1,492 employees.

COMPENSATION

₹85,441

Current average salary. Product has the highest departmental average at ₹89,307, while Marketing has the lowest at ₹79,629.

CAREER PROGRESSION

18.50%

Overall promotion rate. Managers have the highest rate at 21.07%, while Analysts have the lowest at 17.04%.

RETENTION

15.47%

Overall resignation rate is 15.47%. Customer Support has the highest resignation rate at 17.18%, followed closely by Operations at 17.16%.

PERFORMANCE

3.43 / 5

Average performance rating is 3.43/5. Product has the highest departmental average performance, while Marketing has the lowest.

ATTENDANCE

93.76%

Overall attendance is approximately 93.76%. Department-level attendance is relatively stable, but employee-level exceptions require attention.

OVERTIME

8.06 hrs

Operations has the highest average overtime at approximately 8.06 hours. Exceptionally high individual overtime may indicate workload or staffing concerns.

TRAINING

72.30%

Overall training completion rate is 72.30%. Product has the highest completion rate at 74.38%, while Operations has the lowest at 70.79%.

CAREER PATHWAYS

17.04%

Analysts have the lowest promotion rate. Clear promotion criteria and structured development plans can improve career progression.

RETENTION FOCUS

17.18%

Customer Support has the highest attrition rate. HR should investigate key retention drivers and employee concerns.

WORKLOAD

698 hrs

The highest individual overtime is 698 hours. Exceptionally high overtime should be reviewed for workload imbalance and staffing gaps.

KEY RECOMMENDATIONS

CAREER GROWTH

Strengthen Career Pathways

Create clearer promotion criteria and structured development plans, especially for Analyst-level employees.

RETENTION

Focus on Employee Retention

Investigate the reasons behind higher attrition in Customer Support and Operations.

WORKLOAD

Monitor Excessive Overtime

Review employees with unusually high overtime to identify workload imbalance, staffing gaps or capacity issues.

TRAINING

Improve Training Completion

Focus on improving training participation and completion, particularly in Operations.
